The Chew that's Sweet and Clean

No wonder SCHNAPPS is popular—it's the chewing tobacco that suits the man who chews to get enjoyment from the tobacco, instead of the mere habit of chewing and expectorating.

SCHNAPPS is made from choice selections of the well matured, thoroughly cured Piedmont leaf, with an aroma so delightful and appetizing that it popularized the chewing of tóbacco. There's no other tobacco in the world that requires and

MADE FROM THOROUGHLY takes so little CURED LEAF

sweetening.

TOBACCO That's what makes the difference between SCHNAPPS and the many excessively sweetened TOBACCO BELT imitations-and it's such a difference that once a chewer chews SCHNAPPS, he is never deceived with any imitation.

The sweet, tasty and exhilarating quality of SCHNAPPS tobacco has made the Reynolds factory famous as the manufacturers of the best and most popular brands of chewing tobacco, and as the largest and best equipped flat plug factories in the world.

They contain every modern appliance for producing the best chewing tobacco, by clean, sanitary and healthful processes. The R. J. Reynolds Tobacco Company is under the direction of the same men who have managed it since 1875, and who have made the chewing tobacco business a life-study.
